

Dear Parents/ Caregivers,

We welcome our children back for another busy term.

This term we are having a Science focus and investigating ICE. This will be an interesting inquiry based unit and we plan to finish off with a trip to the Tip Top Factory on 26th May. A letter will come home with details nearer the date. The latter part of this term we will be reading and performing well known children's tales as part of a Drama focus.

In June the school is holding Parent-Teacher Interviews. We encourage all parents/ caregivers to attend and take the opportunity to bring any concerns they may have to their child's teacher. This evening forms a vital part in the school-home partnership that has your child's interest at its centre.

Our children have been working towards the Mathathon next week and we hope you will support them in their endeavours to do well and collect sponsorship money for the school.

The weather has turned cooler and with this change in the weather come the inevitable colds and sniffles. If your child has a temperature or a sore throat it is a sign they are unwell and may need some extra TLC at home. We also request supplies of tissues to deal with colds in the classroom. Also, please name all sweatshirts before they get lost or misplaced.

Each of our classes has a link parent who acts as a liaison person for teachers and parents. If you would like to be on their emailing list speak to your child's teacher.

Linda Sperring
(Team leader)
